Health Cluster Coordination Training : Divonne

Training As Told By The Participants

I felt almost all sessions were relevant to me, even some of the topics I was fairly familiar with. I highly commend the very high quality of facilitators, they had me consistently engaged and interested. Met all these wonderful people! Learned a lot from their different experiences too.

Sacha Bootsma, Health Cluster Coordinator, South Sudan

Sacha (left) receives her training certificate from Linda Doull, GHC Unit Coordinator

An excellent environment,
course and nice friendly
trainers.

**Fayyaz Malik, Information
Management Officer, South
Sudan**

**Fayyaz (left) participating in workshop discussion. Aimal
Alkozai, HCC Afghanistan, pictured right.**

Very relevant and a good mix of theory, practice and simulation.

Ernest Dabire, Health Cluster Coordinator, DRC

Ernest (right) engaging in workshop. Jawameer Kakakhan, HCC Iraq, pictured left.

Praise for Simulation Exercise

By far the best simulation exercise I have ever attained. I had to tell myself that the simulation is not real, rather a learning curve.

So well organised, really awesome, had a great time!
