

Join us for a webinar series on:

Strengthening Nurturing Care in Humanitarian Response

The Global Health Cluster is collaborating with the Child Health Task Force, Inter-agency Network for Education in Emergencies, and other partners to incorporate the Nurturing Care Framework into the health sector contribution to humanitarian responses for children, caregivers, and families. Learning from leading scientists and practitioners, join us to discover evidence-based, equitable, and comprehensive early childhood development programs that enhance outcomes for young children in humanitarian crises. Don't miss this opportunity to learn to create quality responses sensitive to their needs and improve holistic support to children in emergencies.

Webinar 1: 27 September | 3pm CET/9am EST

The science behind caring for young children and caregivers: Strengthening Nurturing Care approaches to achieve better health outcomes

Webinar 2: 18 October | 3pm CET /9am EST

Programming in action: Nurturing Care integrated into national health systems

Webinar 3: 9 November | 3pm CET /9am EST

Discussion with Health Cluster Coordinators: Institutionalizing Nurturing Care in humanitarian health interventions
